

Inspire

December 2010

Sherpac Quarterly

2010 has flown by and Christmas is well and truly upon us. We are all really busy here in the office. Thankfully we have two new staff members to help. Welcome on board;

- Jemma our new retail sales specialist.
- Theresa for our customer support.

Both of these ladies are fitting in very well, and are really enjoying getting to know all our customers while also helping them out as best as they can.

We've had a lot going on over the last few months. In October we took part in Foodtech Packtech a trade show focused around food packaging and processes. We also had a trip to Wellington in November to help out for the fantastic Project Born show.

In the lead up to Christmas we have an even more hectic schedule, myself, Frances and Jemma are touring around the country to catch up with customers.

Please check your stock levels and let us know if you need to put in an order, and remember to forecast stock levels into February to allow for holidays and the Chinese New Year.

The whole team here at Sherpac would like to wish you all a very Merry Christmas followed by a truly happy New Year!

Michelle Lamberton
Sales Manager

Our Christmas Hours

- Order before 12 noon on 17th December for dispatch before 22nd December
 - Closes Midday on Christmas Eve
 - Re-opens on Monday January 10th
- See our website for further details: www.sherpac.co.nz

We made these Non Woven Bags for Project Born

Sherpac proudly designed, produced, and supplied promotional bags for the recent Project Born fashion show event in Wellington.

The show was in aid of the Neo-natal Trust which was a huge success. We went to Mojo Coffee's Shed 13 HQ & helped with some of the preparations, before going along to enjoy the spectacular show.

This C4 Bellissimo Bag is one of our latest creations.

Pick up yours today in C4 cafés and online at; www.c4coffee.co.nz

The team packing bags for the event

In October Sherpac took part in Foodtech Packtech. The annual event is regarded as; 'the most important trade event for the New Zealand food technology and packaging technology industries'.

While we were there we met some great people with diverse and interesting products. We're really excited to start working with some of them to find innovative solutions for their packaging needs.

NEW DESIGNS

Introducing our fabulous new bags
